On the 1st of January, 1875, the new postal law will go into effect, requiring the postage on all newspapers sent out of the county where printed, to be paid in advance, at the office where mailed instead of the office where received, as heretofore. We consider this a most iniquitous law; but as long as it is the law, it must be obeyed. The law will compel us to adopt a different mode of doing business with subscribers at a distance. We therefore have to request a settlement, between now and the 1st of January, with all subscribers at a distance. Accounts will be made out immediately, and enclosed in the papers, up to the 1st of January. Those who wish to continue the paper beyond that time will be good enough, at the same time, to remit in advance for another year, and also the postage, which will be 20 cents. Prompt attention to this notice is earnestly requested. Those neglecting it, must expect their papers to be stopped, and the account placed in the hands of an officer for collection.

Take Notice.
In accordance with the above announcement we have this week sent out to our subscribers out of the county, a statement of their accounts up to the first of January, 1875. We shall also enclose in the Banner this week and next, a statement of the accounts of all our mail subscribers; and as we are greatly in need of money, we trust that these little bills will be promptly liquidated.

LOCAL BRIEVITIES.

— Fredericktown is hungry for a course of lectures.
— Saturday night will be Halloween.— Cabbage to the front!
— Put on your underclothing, and escape colds and rheumatism.
— Burglars are becoming bold in their operations all over the county.
— A conference of the Congregational Church is now in session at Gambier.
— The corn crop has proven to be of excellent quality, as well as a large yield.
— We have added another quire to the BANNER subscription. "Everybody takes it."

— After a long "dry spell," the earth was blessed with a fine rain on Monday evening.
— Lump coal is selling in Columbus at 9 cents, delivered. So much for Railroad competition.

— Young America has had any amount of fun in making bonfires of leaves on the streets at night.

— It is a fact, rumor that some of our clergymen are getting up a "corner" on marriage fees.

— The side-walk of the bridge at the foot of Main street is sadly in need of repairs, and should at once be attended to.

— Who will put up the next big business block in Mt. Vernon? Jones' corner is the greatest eye-sore now to be seen in the city.

— The BANNER office is the place to get your sale bills printed on short notice, and in a satisfactory manner. Bring them along.

— A young man who recently took unto himself a wife said he didn't find it half so hard to get married as he did to get the furniture.

— The dwelling house of Mr. Vanzier, near Loudenville, was destroyed by fire a few days ago. Loss about \$1,500, with no insurance.

— Daniel McCarthy, foreman of the John Cooper Foundry, had one of his eyes badly burned on Tuesday afternoon, by sparks of hot metal.

— An Episcopal Convention will assemble at Columbus on the 8th of January, for the purpose of selecting a Bishop for the new Southern Diocese.

— A fire in Mansfield on Monday evening destroyed the planing mill and residence of R. P. Bungan. Loss, \$20,000, with partial insurance.

— Burglars made a raid upon the quiet town of Westerville the other night, and carried away a watch and some money from the residence of Bishop Hanby.

— The Rev. Chester H. Perkins, a prominent Presbyterian clergyman of Delaware, fell dead while walking along one of the streets of that place a few days ago.

— It may be a delightful thing to be Postmaster, but we certainly would not envy the position for half an hour after our Public Schools close in the afternoon.

— The barn of Samuel Gray, Killbuck township, Holmes county, was burned Sunday night. The fire was caused by some children playing in the barn with matches.

— The roof on Adam Adams' blacksmith shop caught fire Thursday morning, but was soon extinguished by a number of active gentlemen applying several buckets of water.

— MARRIED—Oct. 21st, at the house of the bride's mother, near Mt. Vernon, by Rev. Samuel Lynch, Mr. W. Finley Smith, of St. Louis, Mo., to Miss Eliza E. Schenckler.

— That ghastly hint: Charcoal is recommended for fattening turkeys. It should be pulverized and mixed with mashed potatoes, and corn meal, and fed to them in small lumps.

— Some of our Yankee school marms persist in telling the youngsters that W-o-o-e-e-t-e-r says Wooster. If this is so, then we presume R-o-o-c-h-e-t-e-r spells Rooster.

— We were mistaken last week in saying Thomas Wade was Sheriff of Knox county only a single term. He served two terms—having been elected in 1850 and re-elected in 1852.

— We have heard nothing this week in regard to the proposed "new paper" in Mt. Vernon. But we do hear some talk of the Fredericktown Independent being removed to Mt. Vernon.

— Prof. E. Leon gave our citizens a specimen of his powers as a rope-walker on Tuesday and Wednesday afternoons. The performance was decidedly the best of the kind we have ever witnessed.

— If any person wishes to know how a Knox county Judge and jury dispose of sneak thieves, let him read the Court proceedings in this week's BANNER. Only five have been sent to the Penitentiary this week!

— Will H. Kernan, Esq., late of Kenton, who has contributed some very pretty verses to the columns of the BANNER, has accepted a situation on the *Aldine*, the Art Journal of America, published in New York.

— Mrs. Wm. Green, of Monroe township, was thrown last Saturday from a spring wagon and had her leg badly broken by the horse. The injured limb was set by Dr. Lefebvre and the lady is doing as well as could be expected.

— When you hear a man boast of how he has swindled a greenhorn in a trade, at once set him down as a greater rascal than a pickpocket or burglar. His fear of the law is the only thing that prevents him from being bold.

— Our good friends Mr. and Mrs. James Rogers have our thanks for a couple of cans of those delicious Big C. Oysters with "accompanying documents," which were presented in honor of the recent Democratic victory in Ohio.

— Ira M. McFarland, a few days ago, sold a tract of 274 acres of land, in Clinton township, about one mile and a half from Mt. Vernon, to Alex. Clark, of Plymouth, for \$50,000. It is understood the purchase was made in the interest of Hon. Columbus Delano.

— The Rev. W. D. Bodine, of Gambier, has returned from an attendance at the General Convention of the Episcopal Church, at New York. During his absence the pulpit of the "Church of the Holy Spirit" was filled by Rev. Dr. Blake and Prof. Strong.

— The lumber used in constructing the platforms for the speakers on the night of Democratic jubilation, was furnished by Messrs. W. C. Capp and Patterson and Alsford, free of charge. The latter firm, although decided Republicans, are liberal and generous gentlemen, and their kindness in this instance will be remembered by the Democrats.

— Dr. Isaac W. Russell, who has just returned from a business visit to Iowa, Nebraska, Missouri, etc., gives a dismal account of the ravages of the grasshoppers. He states that on the line of his travels vegetation was completely destroyed, and the people have been left entirely destitute. He says that he saw at least a thousand families in wagons returning to their old homes in the Middle and Eastern States.

Common Pleas Court.
The Grand Jury of Knox County after being in session one week, rose on Saturday last, and reported the following indictments, viz: Grand Jurors, 4; Petit Jurors, 2; Burglary and Larceny, 2; Forgery, 3; Robbery, 1; Assault and Battery, 6; Keeping Nuisance, 2; Rape, 1; Assault with intent to commit Rape, 1; Indecent exposure of person, 1. Total, 23.

In the case of the State of Ohio vs. John Shrimplin, for keeping nuisance, the defendant plead guilty, and was fined \$60 and costs.

William Moore, William Price and Charles Shepherd, indicted for burglary, in entering the house of Ex-Sheriff Stead, in this city, plead guilty, and were sentenced to three years imprisonment in the Penitentiary.

The State of Ohio vs. John McGrath: Indicted for stealing \$500 from Carey Bell, of Morgan township, Defendant plead guilty, and was sentenced to two years imprisonment in the Penitentiary.

Charles Forester, who was indicted for Grand Larceny, in stealing \$45 from the house of Mrs. Buckingham, in Morgan township, plead guilty, and was sentenced to three years imprisonment in the Penitentiary.

Royal Raybourn, who was indicted for Grand Larceny, in stealing \$105 from Jas. Terry, of Wayne township, plead guilty, and was sentenced to the Penitentiary for two years.

Frank Mentzer, indicted for Petit Larceny, plead guilty, and was sentenced to imprisonment in the County Jail for 10 days, and to pay a fine of \$50.

In the case of Henry Phillips vs. Wm. Bonar, suit brought on a note of \$300, given by defendant to plaintiff, to cover liability as indorser on another note, the jury, after a patient trial rendered judgment in favor of the plaintiff.

Charles Smith vs. James E. Scott. Action for damages received by defendant from falling through plaintiff's hatchway in store room. Verdict for defendant and judgment against plaintiff for costs.

Jacob M. Dunmire vs. David Gault. Appeal. Tried by jury. Verdict set aside, and new trial ordered.

The C. M. Vt. & C. R. Co. vs. Jas. Barron. Suit brought upon defendant's subscription. Special verdict. Judgment out yet entered up.

Elizabeth Coo vs. John Flynn, Jr., and Mary Flynn. Action under Adair Law for selling liquor to plaintiff's husband. Verdict for plaintiff's for \$261.61.

An Unexpected Illumination.
In our notice of the Democratic Jubilation, last week, we omitted making mention of a number of private residences that were brilliantly illuminated. Among the numerous displays that elicited admiration and applause, none surpassed, in beauty and brilliancy, the premises of Ex-Postmaster Boynton, which were festively illuminated with torches and Chinese lanterns. Considering the fact that Mr. Boynton has heretofore been one of the leading Republicans in Knox county, and until recently was Postmaster of Mt. Vernon, this unexpected display, on the occasion of a Democratic Jubilation, is peculiarly gratifying, and is one of those "signs of the times" which show, unerringly, which way the wind blows. We congratulate Mr. Boynton upon having the scales removed from his eyes, and we receive him into the household of the faithful with open arms and unspeakable joy. The choir will sing:

"While the lamp holds out to burn,
The vilest sinner may return."

Improvements in Our Cemetery.
Of late years a number of costly and beautiful monuments have been placed in our Cemetery, which add greatly to its appearance. Mr. C. C. Curtis has just completed a family vault on one side of the old "Indian Mound," which may please the fancy of some folks, but we confess that it is not to our liking. But altogether the most desirable improvement that has been made in the Cemetery recently is the trimming up of the shrubbery, and the clearing out of the small bushes, brambles, etc., that have always made the grounds an eye-sore. This work was done under the direction of Mr. Orville Hubbell, one of the Trustees of the Cemetery, and we take great pleasure in saying it has been well done. Now, if the Trustees and lot-owners would come to some understanding in regard to improving the walks and carriage-ways, our Cemetery would become a place where we would not be ashamed to take strangers when they visit Mt. Vernon.

The Row Case.
The case of Row against the B. & O. Railroad is set for Wednesday, Nov. 4th. We understand that attachments will be issued for any juror or witness who does not promptly appear.

Several young ladies have resolved never to marry, as they don't want to take husbands to ride.

Transfers of Real Estate.

(Carefully Reported for the BANNER.)
The following are the transfers of Real Estate in this county, as recorded since our last publication:

Jacob Ross to Isaac Ross, land in Union, for \$1200.

De. Isaac W. Russell, who has just returned from a business visit to Iowa, Nebraska, Missouri, etc., gives a dismal account of the ravages of the grasshoppers. He states that on the line of his travels vegetation was completely destroyed, and the people have been left entirely destitute. He says that he saw at least a thousand families in wagons returning to their old homes in the Middle and Eastern States.

A well-known gentleman says the longest funeral he ever heard of took place a week ago. His hired girl went to it and hasn't got back yet.
A real estate owner having let all his houses but one, was asked if that unlet house was his last. "Yes, last, but not least," was the reply.
A man weighing three hundred and twenty-five pounds visited one of our photograph galleries the other day, to get a shadow picture.

Rox County Farmer.

When to Sell Wheat.
When to sell the crop of wheat is, perhaps, more difficult to decide than when to thresh. We have known farmers who for a series of years, were obliged to sell their wheat as soon as possible after harvest to meet debts, and again others who were able to hold for the highest prices, and we are satisfied, from years of observation, that those who were compelled to sell early, realized, taking one year with another, the highest prices for their grain. We noticed that when the price was low, whatever there was a sudden rise in wheat, they who were able to hold were resolved not to sell till it had reached the top price, and frequently, just before it reached that price, it suddenly fell far below the point from which it started on its spasmodic advance. If farmers could always know with some accuracy just the amount of old grain and flour left over, and the true condition of the crops all over the world, so they might be able to judge of the amount of supply to demand, they would be prepared to decide whether the early market is what it ought to be or not; but how long as the grain speculators all over the world try to bear the market by exaggerated statements of the amount of the old crop left over in the great centers of the world, and with overstatements of the new crop, they are without a reliable guide. There was a time when speculators were able to subsidize almost the entire price, and procure such crop statements as should suit their own interests and misled the farmers, but the time for that, we trust, is rapidly passing by, and the time rapidly approaching when the intelligent farmer shall be quite as well informed upon the prospective condition of crops and markets as any other class. When the farmer shall have become thoroughly informed on all questions liable to affect the price, he will be a great deal better prepared to decide when to sell his crops than he has been or is now. Perhaps we may lay it down as a general rule, that when the last year's crop has been generally a short one, and the present one is abundant, the early market is best; but when the last one is abundant, and the present one is short, the later market will be better. We have generally done quite as well to thresh and prepare our grain for market as soon as we conveniently could, and when prepared, to sell it, and we do not fear that we can give any better advice to others.—*American Rural Home.*

Where Shall We Put Our Manure?

A correspondent of the Country Gentleman says: It has long been the custom of our farmers to apply their barnyard manure to the stubble and plow it under for wheat and a majority of them still carry the plow out. Is it the best one? Its disadvantages are two-fold; the work comes during the warm season of the year, just before plowing, when our teams need all their strength and endurance—in fact, we are unconsciously, so far as the teams are concerned, could be selected—and the manure must be kept in the yard from the time the stock is turned out in May, until the oats crop is harvested, and even the best arranged yards it loses some of its value during this time. If there is a loss in a well arranged yard, how much greater is it in three-fourths of the yards, in which very little care is taken to guard against waste?
Would it not be better to apply it to the soil before turning it under for corn? The advantages of this plan are the hauling can be done during the open weather of winter or early spring, when the teams are comparatively idle, and the farm hands have most leisure time. There will be no loss from remaining in the yard during the summer, and the crop of corn, which is one of the greatest feeders, is materially increased. Another advantage on strong land is, that we shall avoid great expense our annual loss of grain from the wheat going down (lodging) being it is properly filled. One objection urged against this plan is that the crop of corn will be somewhat worthless. I avoid this trouble by substituting Hungarian grass for oats, and as the usual market price of corn or wheat is enough to buy the oats and the value left. A far more serious objection is that on land only moderately productive the wheat will not grow.
Iant. This is a good commercial fertilizer, and will be doubly productive by the increase of corn and grass crops.
Keep the Soil Mellow Around Trees.
Unless the surface of the ground is matted around young trees over an area of six to ten feet in diameter, the ground should be kept clean and mellow. Every farmer knows that a hill of corn or potatoes will not amount to much unless cultivated, and yet there are many who will neglect to give the same care to a tree which is worth a hundred hills of either of the former. In rich soils trees may grow rapidly without cultivation, and no amount of grass or weeds will retard them; but there are other things besides growth to be looked after. If the weeds and grass are allowed to grow up around the stems of apple, peach or quince trees, the bark will become soft near their base by being shaded, and thereby be in a suitable condition for the reception of the eggs of borers, which will eventually bore into the wood of the tree. Take any dozen young apple trees in sections where the apple tree borer is abundant, and allow a portion to be checked with weeds and the remainder well cultivated, and then watch the result. From our own experience we believe that the chances are nine to one in favor of those cultivated being exempt from this pest.
